DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 49 and 50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 49 recites the limitation "said in-feed guide elements" in lines 12-13 and line 16. There is insufficient antecedent basis for this limitation in the claim. Antecedent basis is only provided for "an in-feed guide element" in line 11.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 49 is rejected under 35 U.S.C. 102(b) as being anticipated by Speiss.

The Speiss reference discloses a filling machine comprising a rotating platform 25, an in-feed section (curved path which leads from conveyor belt to rotating portion of machine) comprising in-feed elements (the walls of the in-feed section), and a filling

turret 17 comprising filling elements 29 movable between a rest position and a filling position (see Figures 4 and 5).

Allowable Subject Matter

Claims 1-48 and 51 are allowed.
